

Bitcoin ***Trading World***

START GROWING WITH FINANCIALLY WITH US

Established since 2015

www.bitcointradingworld.com

About Us

- We have been operating since 2015, one of earliest adopters in the Crypto Mining space
- Located in Asia's top Financial Center, Causeway Bay, Hong Kong.

Our History

- When the company started, our owners were trading in the Derivatives markets and Crypto currency trading.
- In 2018, the company decided to focus solely in crypto currency mining. This was also a strategic decision for the investors since derivatives trading involved greater risks and higher capital involved compared to Crypto currency Mining.

Our Strategic Partner

- Bitcoin Trading World signed a partnership with Dragon Mining, together, we created one of the biggest Mining Pools in the world.
- Our Mining Facilities are located in Shenzhen, Guangdong located in China.

Who we are TODAY

- The person who changed the company's business model is Mr. Joseph Conroy, CEO, renowned business man and entrepreneur from New Zealand.
- Today, we offer Cloud Mining Programs for various crypto currencies, offering steady monthly returns to our clients, guaranteed.
- Both deposits and withdrawals are expedient and takes less than 15 minutes for our clients.
- BTW's priority and trademark is customer support. We have 24/7 coverage and are always here to meet any request and inquiries that our clients may have.

MINING PROGRAMS

We offer various Mining Contracts ranging from 30 to 60 days tenor. Our best selling products are the 90-day contract period for the following currencies:
